ABOUT ME

A result driven Front-End Engineer with 3+ years of experience, specializing in HTML, CSS, Javascript, React, WordPress, and PHP. I'm experienced in building websites or web applications using responsive web design to enhance front-end design while improving the user experience.

KEY SKILLS

HTML5, CSS3, Javascript(ES6), Jquery, React.js, Redux, Bootstrap, Tailwind, Sass, Typescript, GIT, WordPress, CMS Development, Jest, Restful API, PHP, MySQL, Figma, Photoshop, Responsive Design

EXPERIENCE

Aragon Company *- Front-End Developer*

April 2024 - October 2024

- Develop and maintain websites and landing pages for affiliate marketing partners, leveraging **HTML**, **CSS**, **JavaScript**, and **PHP** to ensure responsive and engaging user experiences.
- Design and implement user-friendly, modular components in **React.js** for an in-house web application, enhancing functionality and user interaction. Along with maintaining state variables using **Redux**.
- Create reusable and customizable style components for both web applications and **WordPress CMS**, streamlining design consistency across platforms.
- Integrate APIs seamlessly into web applications using **React.js**, improving data flow and user engagement.
- Refactor and optimize **PHP** codebases, focusing on scalability, reusability, and improved maintainability.

Consumer Focus Marketing *- Front-End Developer*

Jan 2024 - April 2024

- Translate user requirements from **adobe xd** into scalable websites. Optimizing websites with **WordPress** management system, and maintaining databases from **Mysql**.
- Using **bootstrap**, **html**, **javascript** to create web pages, and coordinate with cross-functional teams to identify opportunities to enhance web page responsiveness.

beMarketing *- Front-End Developer*

Apr 2022 - July 2023

- Design user interfaces and websites for a digital agency delivering web development services for clients using **html**, **css**, **javascript**, and **php**.
- Translate user requirements into scalable code, develop prototypes, conduct wireframing activities using **figma**, and ensure alignment with client business specifications.
- Perform testing on web pages with **Jest**, analyze user feedback, and coordinate with cross-functional teams to identify opportunities to enhance web page responsiveness.

UpWork *- Front-End Developer*

Sep 2021 - Apr 2022

- Design, develop, and code web applications for customer accounts, which includes debugging issues, diagnosing root causes, and identifying solutions.
- Create responsive designs for mobile applications, built wireframe, and developed prototypes for web development projects.

EDUCATION

Delaware County Community College, 901 Media Line Rd, Media, PA *-*
Associates in Computer Science
Aug 2016 - June 2020
GPA 3.2.
